

Hole #1 - Par 4

A great opening par 4 to test your nerves, there is out of bounds on the left and a bunker and trees on the right that can swallow up any misguided shots. Avoid the left greenside bunker and going long if you want to make par.

Hole #2 - Par 3

The most daunting tee shot of our par 3's. With out of bounds and a bunker on the left hand side and a pond to the right, the best course of action is to take plenty of club, take a deep breath and aim to the right side of the green.

Hole #3 - Par 5

The most testing par 5 on the course. Out of bounds lines the left hand side and water lines the right off the tee. Avoid the hazard on the left hand side by the green and a par or birdie is achievable.
