

Hole #4 - Par 4

A straight forward par 4. A tee shot placed just to the left of the fairway bunker is the ideal placement that will leave you with a short iron into this elevated green. Don't over club your approach shot as long on this hole can create a challenging up and down for par.

Hole #5 - Par 5

A straight forward par 5 that has the lowest scoring average on the course. A good drive sets you up to go for the green in two. The only pitfall here is a bunker on the left side of the fairway. Either stay short or take enough club to carry.

Hole #6 - Par 3

Take plenty of club on this mid length par 3. Those who come up short face a long and tricky 2 putt. Missing long and left can create a challenging up and down for par.
